

Allergen Guide

At Oregano's Pizza Bistro we prepare our menu items in house to ensure quality and guest satisfaction. Please be aware that our normal kitchen operations involve shared cooking and preparation areas. There is a possibility that food items can come in contact with other food products. Due to these circumstances, we are unable to guarantee that any menu item can be completely free of allergens. Oregano's Pizza Bistro will not assume any liability for adverse reactions to foods cooked with or items that come in contact with allergens while eating at any Oregano's establishment. This allergen review was conducted by Food CALC, LLC an independent consultant, and details the most common allergens present in each of our menu items.

Please note that none of Oregano's menu items include Sesame.

*VEGAN OPTIONS

While we do not currently offer a vegan menu or dairy free cheese or pizza dough, we do have several dairy free options in our pastas and salads. All of our pasta noodles are vegan and can be served with our Tomato Puree Sauce which is vegan as well. You can ask to have the pasta served without garlic bread and swap it for our tasty Italian Baguette. Please be sure to mention any dietary restrictions to your server and they will be happy to accomodate your requests.
